Special to The Tribune. OGDEN, March 15.-Judge J. A. Howell the City court tonight delivered a lecture before the Young Men's club of the Presbyterian church on "Two Years of skime." Judge Howell related many incoresting facts in connection with his two

string. Indge Howell related many inversing facts in connection with his two years service as Police Judge.

In prefacing his remarks Judge Howell stated that in the two years there have been 62% men and women tried before the numicipal court and that he had had an uniqual chance to study the characteristics of these classes. He classified the criminal element, defining the distictive characteristics of each and gave a most interesting story of the many classes which were responsible for the lives they led. He also teld of the remedies applied to correct them or punish them as the case might be and strongly advocated the cetabilishment in Oxden of a place where those people could be cared for.

One of the causes which he gave as productive of crime was the intermingling of all classes of criminals in jails, and told of the efforts being made by the local department to keep the hardened criminals separated from the others. The whilsty babit he gave as responsible for more than 62 per cent of the crime committed in this city and laid at the ucor of king alcohol nearly every crime.

GREAT WESTERN TUNNEL:

PARK CITY, March 15.-A. E. Wedge wood returned from the Great Western resterday and reports rapid progress in the big funnel there. Two hundred feet in solld granite has been driven since Mr. Wedgewood a last visit two months ago, which is considered an unusual record and brings the great bore materially nearer its goal, the big contact vein of that section. The Great Western, which is situated less than a half mile from the Brighton hotel, is one of the really great undertakings here, the first part of the programme being the driving of an 1860-foot tunnit through the granule formation to the ledge Eleven hundred feet of the work is already completed and at the rate it is progressing the vein should be cut in seven months. Nothing but a remarkable surface showing would warrant such a vast undertaking, and it is said that the showing on the Great Western's grounds fully justifies the outlay. Great mineral blowouts filled with values mark the course of the contact vein and in the upper tunnel a good showing of values is revealed. Mr. Wedgewood said that there is little doubt that the lower tunnel will open up values in good quantities. It will cut the formation at a great depth and will fully show whether the country in the vicinity is true to its surface promises.

Mr. Wedgewood, who walked on snow-shoes from the Comstock to the Great Western, reports an Immense amount of mow in that vicinity. He says there is fully eight feet on the level in the neighborhood of Brighton, and that the range in depth near the divide is all the way from eight to twelve feet.

SANPETE REPUBLICAN CONVENTION IS CALLED

Special to The Tribune. MANTI, March 15.—The Sampete county central committee met yesterday and called a county convention at Manti April 1st to elect delegates to the State convention at

Sait Lake April 8th, So far no candidate for delegate to the national convention has appeared. A general apathy appears to prevail upon that perticular portion of the political programme of the year, probably for the reason that the general belief that the President will receive the nomination by accia

dent will receive the nomination by acclamaticn.

Present interest centers upon the judicial convention of the Seventh district,
called to convene April 9th at Mi. Pleasant.
Three candidates are in the field for th
judgeship, Judge Johnson, William D. Livingston and A. H. Christensen. The public
sentiment has not yet crystalized to warrant a safe prediction as to who will succed. At present it appears Mt. Pleasant
will come for Judge Johnson, Mauti for
Livingston and Gunnison for Judge Johnson first and Christensen for second choice.
A somewhat remarkable feature of the
action of the county committee vesterday
was that they ignored the call of the
chalrman of the Seventh Judicial district
for the convention at Mt. Pleasant April
juh and made no provision to have this
county represented.

DOINGS AT THE PARK | Explosion of Toy Pistol Caps in Chicago Deals Death and Wrecks Buildings.

> CHICAGO, March 15.-Three persons two of them boys, were killed and eight other employees were injured today by an explosion of toy-pistol caps which completely demolished the two-story brick manufacturing plant of the Chi-

cago Toy Novelty company at Western avenue and West Eighteenth street. The wrecked building caught fire im-mediately after the explosion and the bodies of the dead were so badly burned and mangled that it was impossible to recognize them except by remnants of clothing.

The building was occupied by three firms, employing nearly 100 persons each. It is believed some others may have been killed, but until the debris, which is piled twenty feet high, can be cleared away, the exact number of dead cannot be ascertained.

The known dead are: Harry Jordan, Alexander Wilnski, Joseph Bendowsky, 14 years old. It is not known what caused the ex-

plosion, and, so far as can be learned, the company had no permit from the city for the manufacture of explosives. The caps were of paper and contained a composition of chloride of potash, phosphorus and antimony.

WONDERFUL CURE OF SORE HANDS

By Cuticura After the Most Awful Suffering Ever Experienced.

EICHT DOCTORS

And Many Remedies Faile to do a Cent's Worth of Good.

About five years ago I was troubled with sore bands, so sore that when I would put them in water the pain would very nearly set me crazy, the skin would peel off and the fir-b would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to use for fully three years, but could get no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first began. I also tried many remedles, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings when I got up, to think I had to go to work and stand the pain for ten hours, and I often felt like givlag up my position. Before I started to work mornings I would have to wrap every finger up separately, so as to try and keep them soft and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. But thanks to Cuticura, the greatest of all great skin cures. After doctoring for three years, and spending much money, a 50c. box of Cuticura Obstment ended all my sufferings It's been two years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cutleura Olntment." Mr. Alfred H. Goble, who was body guard to Gen. Grant during the Civil war, writes: "The ravages of war ruined my health. For years I doctored without benefit, but Vinoi has changed me from a weak, debilitated invalid, with no appetite and suffering from inligestion, into a robust, hale and hearty man, enjoying life and feeling twenty rears younger. Vinol nourishes the

blood and strengthens every organ in the body. Vinol is pleasant to take, and not at all like the greasy, nauseating

cod liver oil or emulsions. I advise every person who is run down, weak or in poor health to try it."

We Druehl & Franken, druggists of Salt Lake City, declare Vinol to be the most valuable preparation of cod liver coll the greatest health restorer and oil, the greatest health restorer and strength creator for the weak and aged which we have sold in our store.
